

## Dialysis

### Dialysis

Travel Envy is the result of a collaboration driven by people who are already active for years in the travel and the helm now have taken into their own hands. Our travel agency specializes in travel tailor care where the emphasis is on attention to the individual, both for the spirit as the body. People who received extra care or have a disability, remain with us in the lurch. Even patients who regularly to the dialysis machine should give us a chance to enjoy the holidays without the medical needs in mind. Envy Travel has specially adapted for affordable hotels you picked. A dialysis patient explains his health in the hands of his conditioning. A confidence thing and so that is exactly where we go!
